

Mobile Elevating Work Platform Practical Evaluation

Operator's Name:	Theory Training Date:
Evaluator/Trainer:	Evaluation Date and Time:
Equipment: Scissor Lift / Boom Lift / Other	Equipment Details:
RESULT: PASS FAIL	

Scoring for individual items: Pass / Fail / NA

Preparation	Score	Notes
Conducts a risk assessment.		
Determines the correct MEWP and/or suitability for the type of work and location.		
Performs pre-use inspection in accordance with company guidelines and correctly completes any required inspection documentation.		
Reports deficiencies in accordance with company guidelines.		
Selects appropriate personal protective equipment.		
Performs a functionality test to ensure all functions are working correctly.		
Provides adequate training and instruction to occupants.		
Parking and securing procedure; set up markers, signage, etc.		
Maneuvering and General Practices		
Consistently demonstrates good judgement. e.g. planning route of travel, maintaining a safe speed and distance from objects.		
Operates safely around pedestrians.		
Uses all safety devices and functions correctly including horn at intersections.		
Travels with the platform in the appropriate position.		
Uses controls correctly and smoothly.		

Maintains awareness of center of gravity and always keeps it well within area of stability.		
Always maintains visual awareness. Looks in the direction of travel prior to activating controls. Visually scans area for debris and surface irregularities; Perform gradual stop.		
Maintains awareness of dynamic forces. Smooth starts, stops and accuracy of maneuvers.		
Clears obstacles safely; Perform an emergency stop and recovery maneuvers.		
Executes emergency procedures correctly.		
Uses correct PPE consistently throughout the entire evaluation, when required.		
Lifting/Lowering		
Positions MEWP correctly for lifting/lowering. Checks for obstructions and ensures they are cleared.		
Is familiar with controls and selects them correctly.		
Maintains smooth motion while lifting/lowering.		
Moves articulating boom in proper sequence		
Slopes (If Applicable)		
Operates safely on ramps		
Inclination warning - operator reaction and correction		
Fuel Sources		
Wears appropriate PPE while fueling		
Proper procedure for gas or diesel		
Proper procedure for electrical vehicles		
Proper procedure and instructed for use of propane in vehicles
